

BANK INFO QUICK TIPS

- 1) Make sure you are copying the bank information exactly as they have it, and verify the city and state the bank was opened in.
- 2) If the applicant doesn't know their routing number, it's typically easily searchable through google. Routing numbers are usually generated by state, not personal account.
- 3) Online banks/prepaid debit cards will not work with AIL or NILICO. A list of examples is listed below. Generally speaking, if you cannot find a physical bank location (other than one main location), it is probably an online bank/prepaid debit card.

Examples of banks that wont work with AIL and NILICO:

Chime

Metabank

Bancorp

Green Dot

Anything with "Moneycard" at the end

Cards associated with stores such as Walmart
